

## **Inventory for FOIA Request 2014-0250-F**

### **NSC Records Regarding the Invasion and Subsequent Fall of Baghdad to American Troops on 04/09/2003**

#### **Extent**

189 folders, approximately 14,191 pages / 194 assets

#### **Access**

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processing by**

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 04/16/2019

#### **Scope and Content**

The materials in FOIA 2014-0250-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0250-F requested materials from the National Security Council regarding the invasion and subsequent fall of Baghdad to American troops on April 9, 2003.

This FOIA primarily contains books, cables, charts, correspondence, cover sheets, distribution receipts, forms, lists, maps, messages, National Security Council Profile Sheets, news and journal articles, press briefings and press releases, resolutions, reports, schedules, speech drafts, administrative routing documents, routine printed emails, statements, talking points, and timelines.

Included are materials related to weapons of mass destruction, Iraqi regime change, foreign media reports on the United States relations with Iraq, the use of military force against Iraq in 2003, and reconstruction and humanitarian aid in Iraq. These materials come in the form of news sources, unclassified cables, timelines, reports to Congress, a number of unclassified white papers, and open source reports. These reports are from several sources including the National Intelligence Council, the United States Department of State Bureau of Intelligence and Research, and the Council on Foreign Relations. This FOIA also includes timelines on United Nations sanctions against Iraq, United States relations with Iraq, and Operation Iraqi Freedom; fact sheets, press releases and reactions in the press to the United States invasion of Iraq; and materials on the reconstruction process in Iraq after the invasion, including several daily updates from the Office for Reconstruction and Humanitarian Assistance (ORHA). Additionally, there are statements about weapons of mass destruction in Iraq before the United Nations Security Council by Mohamed ElBaradei and Hans Blix, along with testimony before the Senate Armed Services Committee on the use of military force against Iraq by United States Secretary of Defense Donald Rumsfeld, General Tommy Franks, and Under Secretary of Defense for Policy Douglas Feith. Lastly, this FOIA also contains copies of an interview Secretary of State Colin Powell gave to Sir David Frost in August 2002.

Electronic records in this FOIA include routine emails, summaries of media coverage regarding the war in Iraq, news articles and op-eds regarding the war in Iraq, summaries of public polling, and a presentation on civil-military relations.

It should be noted that many of the documents listed here may have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

### **System of Arrangement**

The materials in FOIA 2014-0250-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject and WHORM Alpha Files are processed at the document level.

The WHORM Alpha File was compiled by the White House Office of Records Management and is a series of documents arranged by name of persons, organizations, or events.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu)

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
