

Inventory for FOIA Request 2014-0233-F

Records Sent to, Sent by, or Received by President George W. Bush regarding Saudi Arabia from January 2001 - March 2003

Extent

215 folders, approximately 6,378 pages

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 04/16/2019

Scope and Content

The materials in FOIA 2014-0233-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0233-F requested materials sent to, sent by, or received by President George W. Bush regarding Saudi Arabia and Prince Bandar bin Sultan, Saudi Arabian nationals who left the United States in the weeks after September 11, 2001, and Prince Turki al Faisal from January 2001 - March 2003.

This FOIA primarily contains cables, correspondence, cover sheets, distribution receipts, forms, lists, messages, National Security Council Profile Sheets, news and journal articles, press

briefings and press releases, Q and As, reports, speech drafts, barcode scanning sheets, administrative routing documents, routine printed emails, and statements.

Records include ceremonial correspondence and thank you notes between President George W. Bush and various Saudi representatives including Crown Prince Abdullah and Saudi ambassador Bandar bin Sultan; a transcript of an interview between press and a senior administration official on 04/23/2002; correspondence with members of Congress on various issues relating to Saudi Arabia and United States relations; transmittal memoranda (snowflakes) with attached news articles from Secretary of Defense Donald Rumsfeld to President George W. Bush; reports containing factual information on the Middle East peace process; drafts of various speeches that mention Saudi Arabia; letters to President George W. Bush soon after the 9/11 terrorist attacks; a memo regarding the status of the confirmation of ambassadors; and four memoranda of telephone conversations declassified under mandatory review between President George W. Bush and Crown Prince Abdullah of Saudi Arabia, President Mubarak of Egypt, and King Abdullah of Jordan.

It should be noted that many of the documents listed here may have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in FOIA 2014-0233-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas - White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu
