

Inventory for FOIA Request 2014-0079-F[1]

Records on the Drafting of the USA PATRIOT Act of 2001

Extent

121 folders, approximately 15,505 pages / 1,881 assets

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 04/16/2019

Scope and Content

The materials in FOIA 2014-0079-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0079-F[1] requested materials related to the drafting of the USA PATRIOT Act of 2001.

This FOIA primarily contains draft legislation, general correspondence, routing memorandums, speeches and drafts thereof. Also included are Congressional Research Service (CRS) reports, briefing materials, transcripts of testimony before Congress, and schedule proposals. Electronic records consist of draft legislation, final Statements of Administration Policy, Congressional Research Service (CRS) reports, Legislative Referral Memoranda (LRM), general correspondence, as well as Presidential remarks. In addition, one will find schedule proposals

and briefings regarding the bill signing ceremony, along with supporting documents such as participant lists, Worker and Visitor Entry System (WAVES) records, and photographs. Also included in this request are congressional materials, such as Daily Whip Alerts, schedules of the House Rules Committee, and published statements on the legislation from Congressmen.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2014-0079-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of documents and folders, as well as a manifest of electronic records, processed in response to FOIA 2014-0079-F[1]:
