SO 004
Reception for the White House Historical Association
November 13, 2002
Draft #4

Good evening, and thank you all for joining us. As you conclude your symposium on the centennial of the West Wing, Laura and I are very pleased to welcome you to the White House.

It's been said of the presidency that the pay is good, and you can walk to work. This evening you will see where that work is done, as you tour the West Wing. From 1800 to 1902, most presidents worked upstairs in this building, along with the entire staff. Things would be a little tight if we tried that today. For a full century now – half the life of the White House – the West Wing has been the center of the executive branch. Great events have unfolded there. And all who have worked there, during 18 presidencies, have counted it a great privilege.

Ten of these presidents have known Hugh Sidey. He is one of the great journalists in our country, and around the White House is respected by all. Hugh has given much of his time and wisdom to the White House Historical Association. He will soon retire as chairman of the Association, and leaves that position with our deepest gratitude.

Acknowledgments

- Hugh Sidey, Chairman, White House Historical Association (will introduce the President)
- Mrs. Laura Bush
- Henry Dudley, Vice Chairman, White House Historical Association
- Neil Horstmann, President, White House Historical Association
- John Riley, Director of Education and Scholarship Programs, White House Historical Association
- Roger Porter, Member, White House Historical Association
- Fred Ryan, Member, White House Historical Association

We are all indebted to the directors and staff of the White House Historical Association. These are the men and women who safeguard the history and beauty of the people's house. I understand the Association has purchased a new rug for the Cabinet Room. Laura and I thank you – and we promise not to let Barney anywhere near it.

One of the directors of the Association is George Elsey, who was a Navy ensign assigned to the White House during the Second World War. Mr. Elsey, who is here this evening, reported to the Map Room in the spring of 1942, and recalls working with an executive clerk who had served every president since William McKinley. For those who serve in the White House – and certainly for those who call it home – each day brings reminders of all that came before us. With the pride of serving here comes a sense of humility. We each belong to a larger story that began long before we arrived, and will continue long after we are gone.

It was McKinley's successor, Theodore Roosevelt, who oversaw construction of the West Wing. The addition was intended to be temporary – which in Washington often means forever. And in this case, we're glad of it.

On your tour this evening, you may find many staffers still at their desks. What you will not find is wasted space. Almost every corner is put to good use. Visitors often expect a grander scene. In fact, the West Wing is rather modest, quiet, and a bit crowded. It's a nicely understated place that turns your mind to the work of government, not to the trappings of power.

When you step outside the mansion and onto the West Colonnade, you will first pass the Press Briefing Room, built during the Nixon Administration over the old swimming pool. The pool was not actually removed – only emptied and covered over. Through the years there have been rumors of a trap door. I have often looked for the button.

Entering the West Wing, you go up a slight incline – the same one designed to accommodate Franklin Roosevelt's wheelchair. The center of the West Wing is the Roosevelt Room, honoring both presidents of that name. There we display the flags of the armed forces – and, in a place of honor, Theodore Roosevelt's Nobel Peace Prize.

Nearby is the Cabinet Room – where, for 13 days and nights, the Cuban Missile Crisis was managed. It was there, by the fireplace, that Harry Truman was inaugurated on April 12, 1945.

At the southeast corner is the Oval Office. I recently gave a video tour of the room, which can now be viewed on the White House website. Each new occupant can decorate the Oval Office for himself. One of my first decisions was to keep the Resolute desk, which has been used by many Presidents, going back to Rutherford B. Hayes.

This place that began as a temporary structure is now a permanent part of our government, and our history. The West Wing is temporary only for those who have the privilege of working there.

We have each been given a daily responsibility, and the honor of a lifetime. For all of us, the day will come when we empty the drawers and turn our duties over to others. While we are there, we strive to put these hours to good use ... and hope it will be said of us that we left the West Wing better than we found it.

Thank you very much, and enjoy the evening.

We are all indebted to the directors and staff of the White House Historical Association. These are the men and women who safeguard the history and beauty of the people's house. I understand the Association has ordered a new rug for the Cabinet Room. Laura and I thank you – and we promise not to let Barney anywhere near it.

One of the directors of the Association is George Elsey, who was a White House naval aide during the Second World War. Mr. Elsey, who is here this evening, reported to the Map Room in the winter of 1942, and recalls working with an executive clerk who had served every president since William McKinley. For those who work in the White House – and certainly for those who call it home – each day brings reminders of all that came before us. With the pride of serving here comes a sense of humility. We each belong to a larger story that began long before we arrived, and will continue long after we are gone.

It was McKinley's successor, Theodore Roosevelt, who oversaw construction of the West Wing. The addition was intended to be temporary – which in Washington often means forever. And in this case, we're glad of it.

On your tour this evening, you may find many staffers still at their desks. What you will not find is wasted space. Almost every corner is put to good use. Visitors often expect a grander scene. In fact, the West Wing is rather modest, quiet, and a bit crowded. It's a nicely understated place that turns your mind to the work of government, not to the trappings of power.

When you step outside the mansion and onto the colonnade, you will first pass the press briefing room, built during the Nixon Administration over the old swimming pool. The pool was not actually removed – only emptied and covered over. Through the years there have been rumors of a trap door. There is none. I know this – because I have often looked for the button.

Entering the West Wing, you go up a slight incline – the same one designed to accommodate Franklin Roosevelt's wheelchair. The center of the West Wing is the Roosevelt Room, honoring both presidents of that name. There we display the flags of the armed forces – and, in a place of honor, Theodore Roosevelt's Nobel Peace Prize.

Nearby is the Cabinet Room – where, for 13 days and nights, the Cuban Missile Crisis was managed. And it was there, by the

fireplace, that Harry Truman was inaugurated in a two-minute ceremony on April 12, 1945.

At the southeast corner is the Oval Office. I recently gave a video tour of the room, which can now be viewed on the White House website. Each new occupant can decorate the Oval Office for himself. The first decision I made was to keep the Resolute desk, which has been used by many Presidents, going back to Rutherford B. Hayes. A side door leads to a small study, where I am watched over by a painting of John Quincy Adams. I asked for it after my Dad took to calling me "Quincy."

This place that began as a temporary structure is now a permanent part of our government, and our history. The West Wing is temporary only for those who have the privilege of working there.

We have each been given a daily responsibility, and the honor of a lifetime. For all of us, the day will come when we empty the drawers and turn our duties over to others. While we are there, we strive to put these hours to good use ... and hope it will be said of us that we left the West Wing better than we found it.

Thank you very much, and enjoy the evening.

Good evening, and thank you all for joining us. As you conclude your symposium on the centennial of the West Wing, Laura and I are very pleased to welcome you to the White House.

John F. Kennedy said of the presidency that "The pay is good, and you can walk to work." This evening you will see where that work is done, as you tour the West Wing. From 1800 to 1902, presidents worked upstairs, along with the entire staff. Things would be a little tight if we tried that today. For a full century now – half the life of the White House – the West Wing has been the center of the executive branch. Great events have unfolded there. And all who have worked there, during 18 presidencies, have counted it a great privilege.

Ten of these presidents have known Hugh Sidey. He is one of the great journalists in our country, and around the White House is respected by all. Hugh has given much of his time and wisdom to the White House Historical Association. He will soon retire as chairman of the Association, and leaves that position with our deepest gratitude.

We are all indebted to the directors and staff of the White House Historical Association. These are the men and women who safeguard the history and beauty of the people's house. I understand the Association has ordered a new rug for the Cabinet Room. Laura and I thank you – and we promise not to let Barney anywhere near it.

One of the directors of the Association is George Elsey, who was a White House naval aide during the Second World War. Mr. Elsey, who is here this evening, reported to the Map Room in the winter of 1942, and recalls working with an executive clerk who had served every president since William McKinley. For those who work in the White House – and certainly for those who call it home – each day brings reminders of all that came before us. With the pride of serving here comes a sense of humility. We each belong to a larger story that began long before we arrived, and will continue long after we are gone.

It was McKinley's successor, Theodore Roosevelt, who oversaw construction of the West Wing. The addition was intended to be temporary – which in Washington often means forever. And in this case, we're glad of it.

On your tour this evening, you may find many staffers still at their desks. What you will not find is wasted space. Almost every corner is put to good use. Visitors often expect a grander scene. In fact, the West Wing is rather modest, quiet, and a bit crowded. It's a nicely understated place that turns your mind to the work of government, not to the trappings of power.

When you step outside the mansion and onto the colonnade, you will first pass the press briefing room, built during the Nixon Administration over the old swimming pool. The pool was not actually removed – only emptied and covered over. Through the years there have been rumors of a trap door. There is none. I know this – because I have often looked for the button.

Entering the West Wing, you go up a slight incline – the same one designed to accommodate Franklin Roosevelt's wheelchair. The center of the West Wing is the Roosevelt Room, honoring both presidents of that name. There we display the flags of the armed forces – and, in a place of honor, Theodore Roosevelt's Nobel Peace Prize.

Nearby is the Cabinet Room – where, for 13 days and nights, the Cuban Missile Crisis was managed. And it was there, by the

fireplace, that Harry Truman was inaugurated in a two-minute ceremony on April 12, 1945.

At the southeast corner is the Oval Office. I recently gave a video tour of the room, which can now be viewed on the White House website. Each new occupant can decorate the Oval Office for himself. The first decision I made was to keep the Resolute desk, which has been used by many Presidents, going back to Rutherford B. Hayes. A side door leads to a small study, where I am watched over by a painting of John Quincy Adams. I asked for it after my Dad took to calling me "Quincy."

This place that began as a temporary structure is now a permanent part of our government, and our history. The West Wing is temporary only for those who have the privilege of working there.

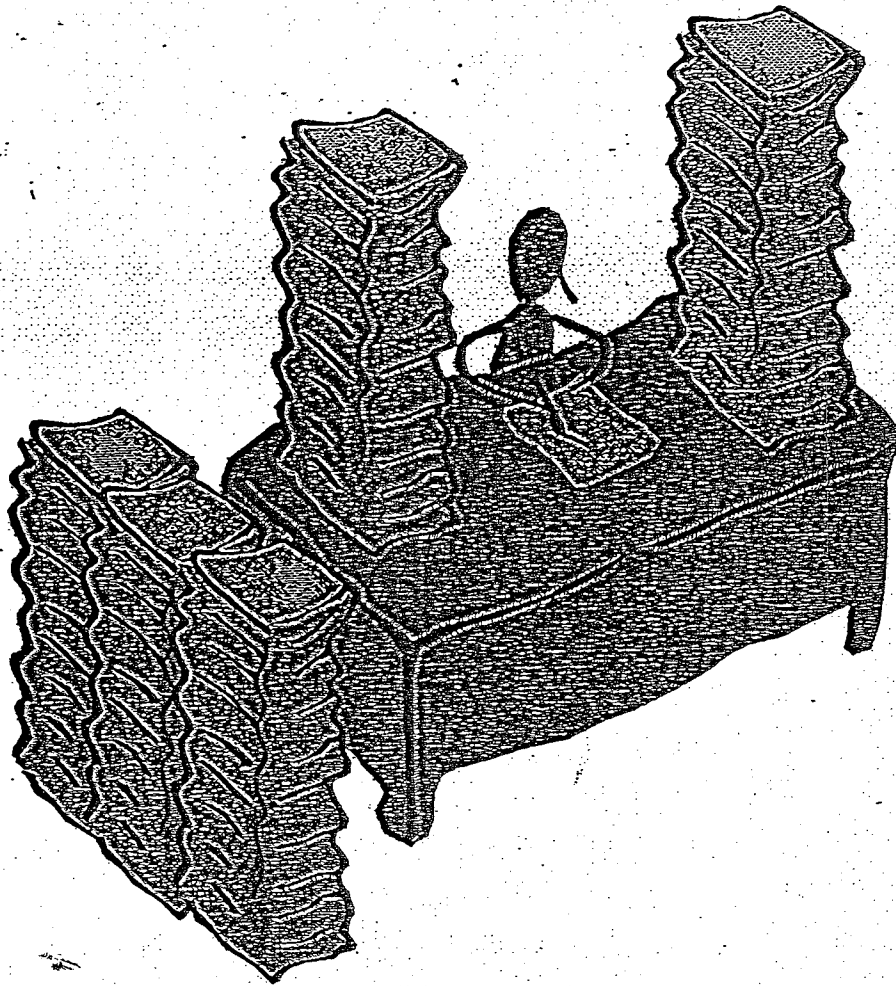

We have each been given a daily responsibility, and the honor of a lifetime. For all of us, the day will come when we empty the drawers and turn our duties over to others. While we are there, we strive to put these hours to good use ... and hope it will be said of us that we left the West Wing better than we found it.

Thank you very much, and enjoy the evening.

Reception for the White House Historical Association
November 13, 2002
Draft #2

Good evening, and thank you all for joining us. As you conclude your symposium on the centennial of the West Wing, Laura and I are very pleased to welcome you to the White House.

John F. Kennedy said of the presidency that "The pay is good, and you can walk to work." This evening you will see where that work is done, as you tour the West Wing. From 1800 to 1902, presidents worked upstairs, along with the entire staff. Things would be a little tight if we tried that today. For a full century now – half the life of the White House – the West Wing has been the center of the executive branch. Great events have unfolded there. And all who have worked there, during 18 presidencies, have counted it a great privilege.

Ten of these presidents have known Hugh Sidey. He is one of the great journalists in our country, and around the White House is respected by all. Hugh has given much of his time and wisdom to the White House Historical Association. He will soon retire as chairman of the Association, and leaves that position with our deepest gratitude.

Reception for the White House Historical Association
November 13, 2002
Draft #2

Good evening, and thank you all for joining us. As you conclude your symposium on the centennial of the West Wing, Laura and I are very pleased to welcome you to the White House.

John F. Kennedy said of the presidency that "The pay is good, and you can walk to work." This evening you will see where that work is done, as you tour the West Wing. From 1800 to 1902, presidents worked upstairs, along with the entire staff. Things would be a little tight if we tried that today. For a full century now – half the life of the White House – the West Wing has been the center of the executive branch. Great events have unfolded there. And all who have worked there, during 18 presidencies, have counted it a great privilege.

Ten of these presidents have known Hugh Sidey. He is one of the great journalists in our country, and around the White House is respected by all. Hugh has given much of his time and wisdom to the White House Historical Association. He will soon retire as chairman of the Association, and leaves that position with our deepest gratitude.

Acknowledgements

- Neil Horstmann, President of the White House Historical Association
- Henry Dudley, Vice Chairman of the Association
- John Riley
- Fred Ryan
- Roger Porter

We are all indebted to the directors and staff of the White House Historical Association. These are the men and women who safeguard the history and beauty of the people's house. I understand the Association has ordered a new rug for the Cabinet Room. Laura and I thank you – and we promise not to let Barney anywhere near it.

One of the directors of the Association is George Elsey, who was a White House naval aide during the Second World War. Mr. Elsey, who is here this evening, reported to the Map Room in the winter of 1942, and recalls working with an executive clerk who had served every president since William McKinley. For those who work in the White House – and certainly for those who call it home – each day brings reminders of all that came before us. With the pride of serving here comes a sense of humility. We each belong to a larger story that began long before we arrived, and will continue long after we are gone.

It was McKinley's successor, Theodore Roosevelt, who oversaw construction of the West Wing. The addition was intended to be temporary – which in Washington often means forever. And in this case, we're glad of it.

On your tour this evening, you may find many staffers still at their desks. What you will not find is wasted space. Almost every corner is put to good use. Visitors often expect a grander scene. In fact, the West Wing is rather modest, quiet, and a bit crowded. It's a nicely understated place that turns your mind to the work of government, not to the trappings of power.

When you step outside the mansion and onto the colonnade, you will first pass the press briefing room, built during the Nixon Administration over the old swimming pool. The pool was not actually removed – only emptied and covered over. Through the years there have been rumors of a trap door. There is none. I know this – because I have often looked for the button.

Entering the West Wing, you go up a slight incline – the same one designed to accommodate Franklin Roosevelt's wheelchair. The center of the West Wing is the Roosevelt Room, honoring both presidents of that name. There we display the flags of the armed forces – and, in a place of honor, Theodore Roosevelt's Nobel Peace Prize.

Nearby is the Cabinet Room – where, for 13 days and nights, the Cuban Missile Crisis was managed. And it was there, by the

fireplace, that Harry Truman was inaugurated in a two-minute ceremony on April 12, 1945.

At the southeast corner is the Oval Office. I recently gave a video tour of the room, which can now be viewed on the White House website. Each new occupant can decorate the Oval Office for himself. The first decision I made was to keep the Resolute desk, which has been used by many Presidents, going back to Rutherford B. Hayes. A side door leads to a small study, where I am watched over by a painting of John Quincy Adams. I asked for it after my Dad took to calling me "Quincy."

This place that began as a temporary structure is now a permanent part of our government, and our history. The West Wing is temporary only for those who have the privilege of working there.

We have each been given a daily responsibility, and the honor of a lifetime. For all of us, the day will come when we empty the drawers and turn our duties over to others. While we are there, we strive to put these hours to good use ... and hope it will be said of us that we left the West Wing better than we found it.

Thank you very much, and enjoy the evening.

Draft #2

Good evening, and thank you all for joining us. As you conclude your symposium on the centennial of the West Wing, Laura and I are very pleased to welcome you to the White House.

John F. Kennedy said of the presidency that "The pay is good, and you can walk to work." This evening you will see where that work is done, as you tour the West Wing. From 1800 to 1902, presidents worked upstairs, along with the entire staff. Things would be a little tight if we tried that today. For a full century now – half the life of the White House – the West Wing has been the center of the executive branch. Great events have unfolded there. And all who have worked there, during 18 presidencies, have counted it a great privilege.

Ten of these presidents have known Hugh Sidey. He is one of the great journalists in our country, and around the White House is respected by all. Hugh has given much of his time and wisdom to the White House Historical Association. He will soon retire as chairman of the Association, and leaves that position with our deepest gratitude.

We are all indebted to the directors and staff of the White House Historical Association. These are the men and women who safeguard the history and beauty of the people's house. I understand the Association has ordered a new rug for the Cabinet Room. Laura and I thank you – and we promise not to let Barney anywhere near it.

One of the directors of the Association is George Elsey, who was a White House naval aide during the Second World War. Mr. Elsey, who is here this evening, reported to the Map Room in the winter of 1942, and recalls working with an executive clerk who had served every president since William McKinley. For those who work in the White House – and certainly for those who call it home – each day brings reminders of all that came before us. With the pride of serving here comes a sense of humility. We each belong to a larger story that began long before we arrived, and will continue long after we are gone.

It was McKinley's successor, Theodore Roosevelt, who oversaw construction of the West Wing. The addition was intended to be temporary – which in Washington often means forever. And in this case, we're glad of it.

On your tour this evening, you may find many staffers still at their desks. What you will not find is wasted space. Almost every corner is put to good use. Visitors often expect a grander scene. In fact, the West Wing is rather modest, quiet, and a bit crowded. It's a nicely understated place that turns your mind to the work of government, not to the trappings of power.

When you step outside the mansion and onto the colonnade, you will first pass the press briefing room, built during the Nixon Administration over the old swimming pool. The pool was not actually removed – only emptied and covered over. Through the years there have been rumors of a trap door. ~~There is none. I know this – because I have often looked for the button.~~

There is
a trap
door!

Entering the West Wing, you go up a slight incline – the same one designed to accommodate Franklin Roosevelt's wheelchair. The center of the West Wing is the Roosevelt Room, honoring both presidents of that name. There we display the flags of the armed forces – and, in a place of honor, Theodore Roosevelt's Nobel Peace Prize.

Nearby is the Cabinet Room – where, for 13 days and nights, the Cuban Missile Crisis was managed. And it was there, by the

and a dining room

3

fireplace, that Harry Truman was inaugurated in a two-minute ceremony on April 12, 1945.

At the southeast corner is the Oval Office. I recently gave a video tour of the room, which can now be viewed on the White House website. Each new occupant can decorate the Oval Office for himself. The first decision I made was to keep the Resolute desk, which has been used by many Presidents, going back to Rutherford B. Hayes. A side door leads to a small study, where I am watched over by a painting of John Quincy Adams. I asked for it after my Dad took to calling me "Quincy."

This place that began as a temporary structure is now a permanent part of our government, and our history. The West Wing is temporary only for those who have the privilege of working there.

We have each been given a daily responsibility, and the honor of a lifetime. For all of us, the day will come when we empty the drawers and turn our duties over to others. While we are there, we strive to put these hours to good use ... and hope it will be said of us that we left the West Wing better than we found it.

Thank you very much, and enjoy the evening.
