

Inventory for FOIA Request 2014-0225-F

Records Sent to, Sent by, or Received by President George W. Bush Concerning Enhanced Interrogation Techniques, Waterboarding, Torture, Rendition, Egypt, Jordan, Rendition Flights, or the CIA

Extent

319 folders, approximately 9,548 pages, 13 clips

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 07/10/2019

Scope and Content

The materials in FOIA 2014-0225-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0225-F requested materials sent to, sent by, or received by President Bush regarding enhanced interrogation techniques, waterboarding, torture, rendition, Egypt, Jordan, rendition flights, or the CIA between September 2001 and January 2009.

This FOIA primarily contains correspondence (mostly to/from members of Congress), White House memoranda, speeches, statements, legislation, transcripts from open Congressional hearings, news articles, reports (both administration-produced and from outside organizations),

and scheduling materials. The bulk of these records are speech files from the White House Staff Secretary. Audiovisual records consist of audio and video clips of routine events, photo opportunities and remarks by President George W. Bush, including remarks to Central Intelligence Agency employees.

System of Arrangement

The materials in FOIA 2014-0225-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files (SMOF).

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.
