Scope and Content

The materials in FOIA 2014-0206-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0206-F[1] contains materials related to Valerie Plame (Plamegate).

This FOIA primarily contains production documents provided to the Department of Justice and Special Counsel per subpoena requests. Generally dated from 2002 through 2004, the production documents are on the topic of Valerie Plame Wilson and White House investigation efforts into the alleged identification of her as a CIA officer. The production documents include email printouts from the Exchange email system, news clippings and press releases, routine certification forms, internet printouts of transcripts of press briefings and media appearances, statements and talking points and drafts thereof, correspondence between Congress and White

House officials, routine court filings, staff members' schedules, and handwritten meeting notes. The vast majority of the production documents present are reports on email search efforts and results of those email searches, such as printed routine email correspondence between the White House Press Office officials and reporters; printed email from specific date ranges and to and from specific staff members, like Karl Rove and Vice Presidential staffers, that are mostly routine and unrelated to the topic; and email constituting news clippings and press releases.

It should be noted that this FOIA is arranged chronologically. The dates referred to in the folder title list are subpoena request dates and not necessarily document dates. Also, "original document production" refers to the first subpoena request and the "Libby Box[es]" contain emails from the Vice President's office for records from the Dianna Campagna - Plame Collection Files.

System of Arrangement

The materials in FOIA 2014-0206-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas Staff Member and Office Files.

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
