Scope and Content

The materials in FOIA 2014-0397-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0397-F requested materials related to information to, from, or about Karl Rove regarding the book *Bush's Brain* by James Moore and Wayne Slater.

This FOIA primarily contains news articles. Textual records consist of letters to and from Karl Rove relating to the book, copies of pages from *The Architect* (another book by Moore and Slater), copies of routing memos and envelopes, barcode scanning sheets, a student research paper, fax cover sheets, and published articles and book reviews. Electronic records consist mainly of articles and press surrounding the release of *Bush's Brain* including publicity and

reviews; as well as articles about Karl Rove during his tenure at the White House; correspondence with reporters, particularly Carl Cannon; interview requests; and questions from reporters.

System of Arrangement

The materials in FOIA 2014-0397-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and George W. Bush Presidential Electronic Records.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
