Scope and Content

The materials in FOIA 2016-0130-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2016-0130-F requested materials related to President George W. Bush's meetings with talk show radio hosts on September 15, 2006 and August 1, 2007.

This FOIA primarily contains schedules and the Daily Diary for President George W. Bush, briefing papers, scheduling background material, call logs, printed emails including press releases and schedules from the White House Press Office, documents regarding meeting attendance, and WAVES database printouts.

System of Arrangement

The materials in FOIA 2016-0130-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member and Office Files.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
